Examen : Session principale Matière : Ing. AV. Des SI

CCDI		ogt.	
	UM To	choice.	
	_	print Planning Meeting consist of session(s).	
1-	-	One	
		Two	
		Three	
		Four	
2			
2-		kind of software development projects can be executed by Scrum Project Management ework?	
		Complete software packages	
		Customer projects	
		Sub-systems, components or parts of bigger systems	
		All kinds of software development projects	
3-		can change the priority of items in the backlog at any time.	
		The product owner, Sprint	
		The Team, Product	
	c.	The Product owner, Product	
	d.	The Scrum Master, Sprint	
4-	When	should the Sprint Retrospective be held?	
	a.	Only at the end of last sprint	
	b.	In the middle of each sprint	
	c.	At the end of each sprint	
	d.	At the beginning of last sprint	
5-	What	What is the best length of an itération in Scrum?	
	a.	1 week	
	b.	There is no ideal iteration length. It dépends on the project and can vary	
	c.	2 weeks	
	d.	1 month	
6-	Who p	provides estimates in Scrum?	
	a.	The Scrum Master and the Development Team	
	b.	The Development Team only	

c. The Product owner, The Scrum Master, and the development Team

- 7- Which of the following is an example of an inrement of working software?
 - a. A new user interface design for functionality delivered in previous integration
 - b. A decomposition of all Product Backlog into tasks for future Sprint Backlog lists
 - c. Additional feature that complement those delivered in previous iteration
 - d. UML diagrams that describe how to deliver functionality in future integration
- 8- Ahmed as the scrum master of a scrum team is invited for a daily stand-up meeting at 9 am. During the meeting the whole team gets into a deep discussion and they finally start blaming each other. What should he do in such situation?
 - a. Wait until people calm down again and continue with the meeting
 - b. Stop the discussions and continue with the meeting
 - c. Interrupt the meeting and continue it later that day
 - d. Discuss the situation with the team and decide together what to do to improve the situation
- 9- Which statement best describes Scrum?
 - a. A complete methodology that defines how to develop software.
 - b. A cookbook that defines best practices for software development.
 - c. A framework within which complex products in complex environments are developed.
 - d. A defined and predictive process that conforms to the principles of Scientific Management.
- 10- The Product Backlog is ordered by:
 - a. Small items at the top to large items at the bottom.
 - b. Safer items at the top to riskier items at the bottom.
 - c. Least valuable items at the top to most valuable at the bottom.
 - d. Items are randomly arranged.
 - e. Whatever is deemed most appropriate by the Product Owner.
- 11- The Product Owner role and Scrum Master role are never included in the Development Team size count:
 - a. True.
 - b. False.
- 12- Scrum allows for re-estimating tasks based on growing insight. Which Scrum team member is responsible for updating the estimates of the work during a Sprint?
 - a. The Development Team.
 - b. The Scrum Master.
 - c. The most senior member of the Team.
 - d. The Product Owner.
- 13- Resolving internal conflicts is NOT the responsibility of the Development Team:
 - a. True.
 - b. False.
- 14- When does the next Sprint begin?
 - a. Next Monday.
 - b. Immediately following the next Sprint Planning.
 - c. When the Product Owner is ready.
 - d. Immediately after the conclusion of the previous Sprint.

- 15- What is the main reason for the Scrum Master to be at the Daily Scrum?
 - a. To make sure every team member answers the three questions in the right team member order.
 - b. He or she does not have to be there; he or she only has to ensure the Development Team has a Daily Scrum.
 - c. To write down any changes to the Sprint Backlog, including adding new items, and tracking progress on the burndown.
 - d. To gather status and progress information to report to management.
- 16- What is defined by the Scrum Framework?
 - a. Rules & Roles
 - b. Document guidelines
 - c. Artifacts and events
- 17- Development Team members volunteer to own a Sprint Backlog item:
 - a. At the Sprint planning meeting.
 - b. Never. All Sprint Backlog Items are "owned" by the entire Development Team, even though each one may be done by an individual development team member.
 - c. Whenever a team member can accommodate more work.
 - d. During the Daily Scrum
- 18- Who should know the most about the progress toward a business objective or a release, and be able to explain the alternatives most clearly?
 - a. The Product Owner.
 - b. The Development Team.
 - c. The Scrum Master.
 - d. The Project Manager
- 19- Which ones of the following main events are defined by Scrum Framework?
 - a. Sprint Planning Meeting
 - b. Sprint Retrospective Meeting
 - c. Sprint Review Meeting
 - d. Mid-Sprint Status Review Meeting
 - e. Daily Scrum Meeting
- 20- What are the advantages of the Scrum Framework?
 - a. Fine-grained requirements are only defined when they are really needed.
 - b. All activities to design, build and test a certain functionality are kept together in one phase.
 - c. Changes are expected and welcomed by Scrum team.
 - d. All of the given answers
 - e. None of the given answers

Exercice 2: IDM (5 points)

On considère les diagrammes de classes d'UML.

- 1-On vous demande de fournir le diagramme de classes qui modélise les diagrammes de classes UML. Il s'agit d'utiliser la notation des diagrammes de classes pour décrire les diagrammes de classes.
- 2- D'un point de vue de l'IDM, que représente le diagramme obtenu dans la question 1.
